

RECYCLE ROBOT PROJECT

AT THE DELAWARE RECYCLING CENTER AN ARTIFICIAL INTELLIGENCE (AI) ROBOT IS USED TO HELP SORT DIFFERENT TYPES OF RECYCLABLES! THE ROBOT IS NEEDED TO MAKE SURE THINGS GET RECYCLED INSTEAD OF BEING SENT TO THE TRASH. CREATE YOUR OWN RECYCLE ROBOT BUT WATCH OUT FOR THE TRASH!!

VISIT OUR WEBSITE TO SEE HOW THE RECYCLING PROCESS WORKS AND TO SEE THE ROBOT IN ACTION!

DIRECTIONS:

USE RECYCLABLES FROM HOME TO CREATE A ROBOT! USE THE CHECKLIST PROVIDED TO MAKE SURE YOUR ROBOT IS ONLY MADE FROM RECYCLABLE STUFF! THEN SUBMIT A PICTURE OF YOUR ROBOT TO YOUR TEACHER. IF YOUR CLASS GETS 10 STUDENTS TO SUBMIT THEIR ROBOT PICTURE YOUR SCHOOL WILL BE ENTERED INTO A DRAWING TO WIN AN OUTSIDE COMPOST BIN AND RAIN BARREL!
